CITIZENS MOTOR CAR CO.

Mrs. Harry Crouch this week purchased the Lacy cottage situated in the north part of the town. Mrs. Crouch has for several years had the property rented, but concluded ownership was more desirable than tenancy, hence he deal.

Mrs. Louis Scherrer and daughter, Miss Florence, and Miss Anne Davis motored over from Castroville and spent Tuesday and Wednesday here taking in the splendid programs of the Radcliffe Chautauqua and visiting Mrs. Scherrer's sister, Mrs. Fletcher Davis.

Miss Ophelia Haby, daughter of Mr. and Mrs. Jack Haby of Dunlap and little Miss Frances Rieber, daughter of Mr. and Mrs. Louis Rieber of D'Hanis, were both patients at the Hurt Infirmary the first of the week. Both have had trouble with their tonsils and had them removed Tuesday. In both cases the operations were complete successes and both the patients have returned to their respective homes. Local surgeons conducted the operations.

A man and his wife, two dope addicts, after being denied the desired drug, pleaded with the sheriff's department a short time ago to be run into jail, hoping that the county physician would then supply them with the craved dope. After being informed that he might not comply with their desire they applied to the Red Cross and were rendered aid in the sum of \$10. They went from here to Uvalde and again received aid from whence they headed for Mexico where they can get all the dope they want. The man was a derelict left by the World War and contracted the dope habit as a panacea for suffering from being gassed, and his wife had contracted the habit from long illness—truly a pitiable couple.

WITH THE DRILLERS.

But little new has developed in the oil situation the past week, although interest is growing daily in the new field. Hundreds of people have visited the new well, among them a large percentage of oil men, and there are many rumors of acreage leasing and contracts for drilling being let, but it is hard to trace the rumors to a definite source. But one new derrick, as far as we positively know, has been contracted for, and that is on the site of Schmidt No. 2, of the Ina Oil Company. This well will be sunk not over fifty feet from the discovery well, and the derrick will be completed by the time this copy of the paper is in the hands of its readers. This derrick is being constructed by Ney & Neuman, local contractors, and is to be eighty-six feet high, the crown block carrying it to something over ninety feet. There are reports to the effect that six new derricks are to go up immediately all within a radius of one mile of the discovery well, but thus far no construction work has begun, consequently we have no definite knowledge of the exact locations of these new propositions.

The new field is attracting quite a lot of attention from the daily papers of the state just now, and the general consensus of opinion of these experts is that a great oil field will be developed here.

According to a San Antonio paper of the 27th, a well will shortly be spudded in some six or eight miles west of the discovery well on a location that has been favorably passed on by geologists. It is our understanding that this is to be a deep test—3,000 feet unless pay sand is encountered at a less depth. This well will attract a great deal of attention as it is generally believed a deep oil sand as well as a shallow sand underlies the greater part of Medina county.

The discovery well of the Ina Oil Company has not been put on the pump, but this will not be but a few days longer delayed. The first truck load of the pump and piping left San Antonio Thursday, and the remainder was scheduled to be delivered at the well Friday. The installing will probably require two or three days, and by the middle of the coming week the capacity of the well should be thoroughly established. In the absence of this test it is the general opinion that the well will exceed one hundred barrels.

Lease hunters are numerous, but only in a few instances have we heard of very high prices being offered for acreage. There are two reasons for this: it has not yet been determined the course of the pool and every one is somewhat indifferent about leasing their land where it is free; a considerable portion of the land of the county has been under lease for years and is held by outside oil concerns that are too busy elsewhere just now to give their attention to the new field.

So far as we know no new development work has been started in the

Yancey field, but now, that interest in oil production has received great impetus from the strike made by the Ina Oil company, new development work may be expected in this promising field at an early date.

Mr. Young, on the Bendle farm is going steadily down with his well. However, as this well is still far from the oil sand, it has yet attracted but little attention. It is our understanding that this is to be a deep test, unless pay sand is struck at a shallow depth. With this deep test in the eastern and the deep test in the western part of the county, the progress of these wells will be watched with interest not only by our people but by oil men throughout the country.

No new development work has been inaugurated, so far as we know, in the Chicon field. But it is possibly the "calm before the storm". Now that Medina county is coming in for a great deal of publicity in oil matters it is not probable that this very promising field will long escape the attention of oil men.

The body of Wm. Whitehead care-
taker of the Wm. Steinhart property
at Medina Lake, was found floating
in the lake Sunday a week ago.
He disappeared Thursday previous to
the finding of the body. Whitehead,
while by most people regarded as a
negro, was in reality a Turk. Mr.
Steinhart believes that deceased, who
had a small metal boat on the lake,
was wrecked by being run down by
some larger craft, but to the best
information obtainable by the
Sheriff's department and Judge Mike
Schorobin, who acted as coroner, it
was a case of suicide. Letters found
in his room would indicate as much
as in one of the letters he told the
woman addressed that he was already
dead. His hat was found on the
bank of the lake in near proximity
to where the body was found, fully
dressed. The only suspicious circum-
stance is that Whitehead was
said to be a fine swimmer.

The hot weather we have been ex-
periencing has a queer effect on some
people. Florian Bendele reports a
weather phenomena as occurring on
his ranch a short time ago. He re-
ports quite a severe wind storm, but
that the storm was confined to the
ground, and that everything, bushes,
shrubbery, etc., and even water in
the pools was violently agitated by
the storm but that perfect calm was
evidenced at the top of the trees as
not a leaf was moving. Everybody is
familiar with Mr. Bendele's reputa-
tion for veracity and any statement
made by him goes unquestioned. Ed
Ingram says the hens in his neighbor-
hood are of the observing kind. Suck-egg
dogs infest that neighbor-
hood, and to beat them the hens have
chosen self-sealing jars for their nests.
Heretofore Mr. Ingram's word was

given perfect credence on any state-
ment he might make. We don't
know how statements made by him
in the future will be accepted.

A. G. Walker no longer sports a
fine gold watch and gold-rimmed eye-
glasses as a part of his personal
adornment. A vender of trinkets vis-
ited the Walker home last Thurs-
day and it is thought Mr. Walker's
jewelry and the trinket vender de-
parted from the home at the same
time. A considerable time elapsed
before the loss was reported to the
Sheriff's department. The suspect
gained his entrance into the house to
show Mrs. Walker some of his wares,
and when she stepped into another
room to get some change to pay for
purchases, the vender proceeded to
appropriate everything within his
reach. Mrs. Walker heard something
drop in the part of the house where
the thief was, but paid no
attention to it as she thought he had
dropped some of his wares. Mr.
Walker's coat and vest were hanging
in close proximity to where the man
was left and during Mrs. Walker's
absence he explored the pockets with
the results above mentioned. In
his haste in extricating the watch
from the pocket he dropped it, which
was the noise heard by Mrs. Walker.
A part of the crystal, which was
broken by the fall, was found after
the departure of the peddler. Mr.
Walker and Deputy Schuehle tra-
iled the man to Sabinal and Uvalde where
the peddler sought to have a new
crystal put in the watch. Before
the Hondo people reached Uvalde the
light fingered gentleman left for the
hill country, and Mr. Walker and the
deputy had to give up the chase on
account of flooded streams. Tele-
phone messages were sent ahead,
however, and the thief may yet be
apprehended. Mr. Walker may get
consolation for his loss by the fact
that one of the disciples of old pre-
scribed the wearing of gold, but we
doubt if he does.

Dr. and Mrs. G. W. Collier and
Mrs. Senter Lee Ware and children

DRILL AT LA COSTE.

From Sunday's San Antonio Light.

La Coste, Tex., July 14.—Much interest attaches to a report here that Fritz Fuchs, well known oil man, has contracted to drill a test for oil on the property of Mrs. Peter Jungman about six miles from here. It is understood that the contract calls for a rig to be in operation in the next 90 days but that Mr. Fuchs expects to start before that period expires. Prof. Sellards of the geological department at the University is said to have made the location for this oil test after visiting the district some time ago.

It may surprise many people to learn that there is already one producing well on this property which was drilled by the LaCoste Oil Com-

A Bazaar.

For the past two or three months the members of the St. Louis Parish have been planning and preparing for a bazaar which is to be held on

August 25th
For the benefit of the Parish Hall Fund.

Various committees have been appointed to take charge of the affair. While these committees will not have a house to house canvass for donations they will be pleased to have those desiring to aid a good cause report to the following not later than Aug. 15th:

- Donations for meals, to Mrs. Mollie Hans. The ladies of course are expected to furnish the cakes and pies and perhaps some good gentlemen not wishing to be outdone by the ladies will furnish that fattened calf or goat.
- Donations of fancy work should be reported or sent to Mrs. Otto Schmitt.
- Anything in the line of hand work will be appreciated.

Mrs. Joe Keller will take care of the donations for Keno. Anything and everything can be made use of.

Small articles, such as can be made use of in fish pond, grab-bag, etc., will be gratefully accepted by Mrs. J. T. FitzSimon.

THE NEW ST. LOUIS PARISH HALL.

A Delco light system has been installed this week in the new St. Louis Parish Hall. The building is now practically completed. Mr. Kueger, the LaCoste decorator, is putting the finishing touches to the stage and all together the hall is one the parishioners and the town can be proud of.

The cost of the building and furnishings is approximately \$6000 and while the greater part of this sum has been raised through the liberal donations of the parishioners and their friends and by the untiring efforts of the ladies in getting up socials etc., there still remains a considerable sum to be paid. Towards the completion of this debt about 30 young ladies and young men are rehearsing a play which will be staged soon and from the proceeds of a bazaar which will be held on Aug. 25th the committees in charge hope to complete the payment of the entire debt.

DEEDS.

The following deeds were recorded the past week:

Tom C. Griffin et ux. to G. W. Morris, Sr., lots 5 and 6, block 6, Phil Hattox Addition to the town of Devine. Consideration \$225.

pany, made up of local people. It is said to be pumping about three and a half barrels a day into storage and will furnish fuel oil for the second test. This well was drilled about one year ago to a depth of 1040 feet and is said to have found a sand similar to the sand in the well drilled by F. A. Brown for the Ina Oil Company some miles further west of here. The report that Mr. Brown had an oil well on the Schmidt lease served to stimulate interest in the oil possibilities of this region and work on the old well here was resumed and it is now producing oil. There is said to be some water in this well but it is believed much larger production can be obtained in the new location which is southwest from this well.

HAASS-SMITH.

On Saturday morning, July 21st, 1923, at 11:30 o'clock, in the Evangelical Lutheran Mission Church of San Antonio, Texas, Mr. Arthur Haass and Miss Lena Smith were happily united in marriage by Rev. F. A. Neumeister.

The groom is the eldest son of Mr. and Mrs. Philip Haass, and is well and favorably known, while the bride is the pretty and accomplished youngest daughter of Mr. Joseph Smith of Somerset, Texas.

Mr. Haass is to be congratulated upon winning such a fair and lovable help-mate for his journey on the matrimonial sea.

After a brief honeymoon Mr. and Mrs. Haass left for their future home in Luling, Texas, where the groom is engaged in business in the oil fields.

To the happy couple scores of friends extend felicitations and trust that their fondest hopes of a long, and prosperous married life may be realized.

FROM THE EAGLE PASS NEWS GUIDE.

Hondo Aztecs Play Here Sunday, 29th.

Manager Flores, of the Eagle Pass Lumber Co. baseball team, is in receipt today of a letter from C. U. Barrientes, manager of the Hondo "Aztecs" baseball team, confirming the coming of his troupe for a two-game series here Sunday, July 29th.

This team is considered as one of the strongest between here and San Antonio, and two very interesting games are expected.

Everybody is requested to come out and help the home boys win. Exact time for the games will be announced later.

Mrs. Joseph Batot went to D'Hanis yesterday afternoon to attend the funeral of her aunt, mention of whose death appeared in yesterday's paper.

J. B. Hurt and family of Hondo, after a couple of days visit to Mr. Hurt's sister, Mrs. T. A. Stevenson, and family in the city, left this morning at an early hour for their home. They came down in their car, and it is likely the rain caught them before they got back, and made travel somewhat disagreeable. Mr. Hurt is local manager of the telephone company at Hondo.

"Custom is the law of fools." —Vanburgh.

Miss Mary Sutherland of Sabinal and Mr. Sterling Fly of Hondo are to be married August 1st at 5 p. m. They will make their home at Sabinal upon their return from a wedding trip of some days. The bride is one of our former Uvalde girls and is a most popular young lady. The groom was recently elected as superintendent of the Sabinal schools and has taught there for the past several years. The friends of the bride are planning a shower at the home of Mrs. H. H. McDonald of Sabinal Wednesday

evening, July 25th.—Uvalde News.

"Slimy Taste"

"When I feel stupid, get constipated, or bilious, I take a good dose of two of Black-Draught and it sets me straight," writes Mr. George B. Haislep, of R. F. D. 2, Columbia, S. C. "It cleanses the liver and I feel all right, and have not used any other medicine as I do not see the need of it. I am a guard at the State Reformatory, and have been for three or more years. When I first heard of

BLACK-DRAUGHT
Liver Medicine
and the good medicine it was, I had been having a tired feeling when I'd get up in the morning. I would be stiff and sore, and had a slimy, bad taste in my mouth, but didn't think so much of it till I began to feel stupid and didn't feel like eating—then I knew I needed medicine. It was then I began Black-Draught, and I felt all made over, ready for any kind of work, ready to eat and sleep. So, for any return of this trouble, I take Black-Draught, and for 25 years it has been my medicine, and I wouldn't be without it at all. My work is constant. I am on my feet a lot. I am out of doors, and fresh air and Black-Draught are all the medicines I need. I recommend it to others for I know it is good."

DEVINE NEWSLETS.

From the Devine News.

Caught Big Fish In Medina This
Week.

Hondo claims Miss Buford as one
of her own, she having spent the
greater part of her life among our
people. A couple of years ago she
took her degree at Southwestern
Normal; she went to New York and
took a course in Y. W. C. A. work
and for the past years has made her
home in the city of Baltimore, where
she was secretary of the Y. W. C. A.
She visited her parents here recently,
leaving on her trip to Baltimore about
July 14th, but beside her parents
she confided to no one the near
approach of the happy event in her
life.

The people of Hondo offer felicita-
tions and best wishes to the happy
young couple for a long and joy-
ous married life.

A HOUSE PARTY.

On Monday afternoon, July 23, Miss
Evelyn Griffis entertained
with a house-party in honor of her
friends who are visiting here. The
guests arrived in time for six o'clock
dinner after which they all attended
the Chautauqua. Arriving home about
eleven o'clock, they all enjoyed
a watermelon feast. Because of a
penalty placed upon the first one who
should go to sleep—there was no
sleeping done. After spending most
of the next day in frolics and stunts,
characteristic of a crowd of girls,
they bade Evelyn god-bye, declaring
it was one of the most enjoyable
affairs of the summer. Those present
were: Miss Ramona Bailey, and
her guests, Misses Ethel, Katherine
and Roberta Heath, of San Antonio;
Miss Rhoda Mae Taylor and her
guest, Miss Mildred Taylor, of San
Antonio; Miss Roberta Hudspeth and
her guest, Miss Florence Butler, of
San Marcos.

FROM THE BANDERA NEW ERA.

Alvin Langford and family of
Pleasanton, were here this week visiting
Mr. Langford's mother, Mrs. B.
F. Langford.

Chas. de Montel was in from Camp
Verde Saturday and dropped in to
see the New Era to extend his sub-
scription figures. He says a good
rain is needed in his section.

A. E. Saathoff and sister, Mrs. Tom
Ferguson were here from San Antonio Sunday.
Mrs. Ferguson is a member of the Myrtle Grove Wood-
men Circle degree team.

M. L. Saathoff, wife and son, Al-
fred, were here from Tarpley Sunday
to attend the Woodmen Circle
meeting.

FARM LOANS.

The Hondo National Farm Loan
Association, H. E. Haass, Secretary-
Treasurer, Hondo, Texas, representing
132 borrowers, with \$503,280
borrowed, is prepared to make farm
loans anywhere in Medina County
under the Federal Farm Loan Act at
5 1/2 per cent interest and 1 per cent
33 year amortization repayment
plan. Nineteen thousand Texas farmers
have taken advantage of this
system of borrowing over fifty million
dollars. Why not you? Former
restrictions have been taken off and
you may borrow for any purpose
provided for in the Act, as a farmer
only.

News from the hospital in San Antonio
reports Mr. C. W. Gilliam rapidly
progressing toward a complete re-
covery and in a brief time he will
again be a familiar figure on the
streets of his home town, where a
hearty greeting awaits him.

Ensign George Gilliam U. S. N.
who was called home on account of
the serious illness of his father, is in
Hondo on a visit to friends of other
days. Mrs. Gilliam, who has been
for some time the guest of her par-
ents, Mr. and Mrs. I. Wilson, met
Ensign Gilliam in San Antonio Mon-
day, and accompanied him here.

The storm sewer on South Front
street has been completed and the
inconvenience that has been caused
the people during its construction will
soon be a thing of the past. How-
ever, Jay driving by car owners on
that street is forever at an end. A
six-inch curb has been placed which
will force cars to go to the end of
the block before turning.
